DETAILED ACTION

Amendment

1. Receipt is acknowledged of the Amendment and Request for Continued Examination filed September 14, 2005.

Allowable Subject Matter

2. Claims 1-8 are allowable over prior art.

The following is an examiner's for allowance: Prior art teaches card readers for reading chip cards for collection of travel data, wherein the reader including a card holder arranged to guide a chip card between a removal position and a read/write position. The identified prior art of record, taken alone, or in combination with any other prior art, however fails to teach or fairly suggest the specific holding device for a chip card for collection of travel data disclosed in claims 1-8 of the present claimed invention. Particularly, prior art fails to teach a park position wherein read/write contacts are disconnected from the chip card and wherein the card is only being stored in within the housing. The claimed holding device further includes a means for manipulation arranged within the card holder to disconnect spring contacts of a set of read/write contacts from plate contacts of the chip card after the chip card has been input into the read/write position and after data has been read out from the in put chip card. The means for manipulation is further arranged to close the spring contacts after the request element has been actuated and the plate contacts of the chip card have been input, and lastly, to trigger a release of the output means after travel data which has been collected in the meantime in a memory which is independent of the chip card has been written

into the chip card. These limitations are not found in prior art and moreover, one of ordinary skill in the art would not have been motivated to come to the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
